STUDENT DATA INFORMATION REQUEST FOR SOFTWARE SERVICES

Colorado’s Student Data Transparency and Security Act [*C.R.S. Section 22-16-101 et seq.*] requires Poudre School District (PSD) to set forth certain contractual requirements before agreeing to the use of products that share student data. Due to the specificity of this language, PSD has opted to use its own contract to ensure compliance and alignment with the law and U.S. Department of Education recommendations regarding National Institutes of Standards and Technology Guidelines for Media Sanitization.

The law defines Student Identifiable Data as all items which are collected, maintained, generated, or inferred through use of the service, which includes metadata. This means any data element in the software’s data table that can be connected to a student must be transparently identified along with how the data will be used. Because this may be different from what the company has reported under the Family Educational Rights and Privacy Act (FERPA), the District recommends pulling the data table to include all data elements.

Please provide the following information to facilitate the contracting process:

1. Detailed, formal description of product and scope of work to be completed.
 - *Descriptions should not include wording such as “most used” or “used by X number of schools.”*
 - *Service descriptions should be detailed and free of sales language so it’s clear what’s being purchased.*

CoSpaces Edu is a 3D visualization educational software.

2. What student data is collected through use of the system?
 - *List all student data that’s collected, maintained, generated, or inferred through use of the service; this includes information created or collected by the company.*

Yes No

Simplifying the process of adding students to CoSpaces by importing students from Clever or Google Classroom.

The following pages contain an example that will serve as a guide for the company's IT team; these items are known as data tables or data dictionaries.

PSD must have specific information from the company in a separate document, which will become an exhibit to the contract. Links to online privacy policies will not be accepted; these policies must be transparently identified in a static document.
