    ● 12.2.4 (Support Docs)
Revised Section 508 – Does not apply
	Supports	As a real-time collaborative game with presentation-style interfaces, the platform requires side-by-side layouts for meaningful comparison and interaction (e.g., team displays, text voting comparisons).
		Content maintains a consistent layout across all participants rather than reflowing at narrow viewport widths. This falls under the WCAG exception for content that requires two-dimensional layout, including games and presentations.

Criteria	Conformance Level	Remarks and Explanations

1.4.12 Text Spacing (Level AA 2.1 and 2.2)
Also applies to:
EN 301 549 Criteria
    ● 9.1.4.12 (Web)

    ● 12.1.2 (Product Docs)
    ● 12.2.4 (Support Docs)
Revised Section 508 – Does not apply
	Partially Supports	Most text respects user spacing preferences and allows scrolling when needed. However, some limitations exist:
		    ● Decorative text and large titles have fixed spacing and don't wrap to multiple lines
		    ● Student writing displays use fixed line spacing that may not adapt to all user spacing preferences

However, when a timer expires, responses are automatically submitted without a confirmation step and cannot be changed afterward. The timed nature of the collaborative activity limits the ability to reverse submissions after time expires.

Urgent messages like errors are announced immediately, while routine updates are announced without interrupting the user. When the activity moves to a new phase, the entire screen changes rather than showing a status message.

Notes:

Criteria	Conformance Level	Remarks and Explanations

1.2.6 Sign Language (Prerecorded) (Level AAA)
    EN 301 549 Criteria – Does not apply
    Revised Section 508 – Does not apply
	Not Applicable	The platform does not contain prerecorded synchronized media.

1.2.7 Extended Audio Description (Prerecorded) (Level AAA)
    EN 301 549 Criteria – Does not apply
    Revised Section 508 – Does not apply
	Not Applicable	The platform does not contain prerecorded synchronized media.

Criteria	Conformance Level	Remarks and Explanations

1.2.8 Media Alternative (Prerecorded) (Level AAA)
    EN 301 549 Criteria – Does not apply
    Revised Section 508 – Does not apply
	Not Applicable	The platform does not contain prerecorded synchronized media.

1.2.9 Audio-only (Live) (Level AAA)
    EN 301 549 Criteria– Does not apply
    Revised Section 508 – Does not apply
	Not Applicable	Live audio-only content is not used in the platform.

1.3.6 Identify Purpose (Level AAA 2.1 and 2.2)
    EN 301 549 Criteria– Does not apply
    Revised Section 508 – Does not apply
	Partially Supports	The application uses standard HTML elements and autocomplete to help identify the purpose of interface elements. Icons include text alternatives for screen readers. However, not all screens consistently use page structure elements (like main content areas), and the application does not support advanced personalization features that would allow users to customize the interface.

1.4.6 Contrast (Enhanced) (Level AAA)
    EN 301 549 Criteria – Does not apply
    Revised Section 508 – Does not apply
	Partially Supports	Titles, instructions, and input fields use white and black only. Most white text on team color backgrounds meet the large text exception, though text on tip cards and sneak peeks may not (by default) be large enough to go beyond the AA standard.

1.4.7 Low or No Background Audio (Level AAA) EN 301 549 Criteria – Does not apply	Not Applicable	Prerecorded audio-only content is not used in the platform.

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 – Does not apply		
1.4.8 Visual Presentation (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Evaluated	
1.4.9 Images of Text (No Exception) (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Evaluated	
2.1.3 Keyboard (No Exception) (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Evaluated	
2.2.3 No Timing (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Applicable	The app is a real-time, synchronous collaborative learning game where timing is essential to the activity itself. Extending or removing time limits for individual participants would invalidate the competitive team-based nature of the experience.
2.2.4 Interruptions (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Applicable	The application has no postponable interruptions. Modal dialogs that appear are either emergency notifications (connection issues, critical errors) or essential components of the real-time synchronized activity itself.

Criteria	Conformance Level	Remarks and Explanations

2.2.5 Re-authenticating (Level AAA)
  EN 301 549 Criteria – Does not apply
  Revised Section 508 – Does not apply
	Supports	If students temporarily lose their internet connection, they automatically reconnect without losing their work. Writing is saved every 1-2 seconds.

2.2.6 Timeouts (Level AAA 2.1 and 2.2)
  EN 301 549 Criteria – Does not apply
  Revised Section 508 – Does not apply
	Partially Supports	The application does not timeout or disconnect students due to inactivity during a match. Students remain connected throughout the teacher-led activity. Student writing is automatically saved every 1-2 seconds, minimizing data loss. However, the authentication session has an expiration time that is not communicated to students before they join.

2.3.2 Three Flashes (Level AAA)
  EN 301 549 Criteria – Does not apply
  Revised Section 508 – Does not apply
	Supports	The application includes two flash effects: a time warning that flashes twice over one second when writing time is nearly up, and a brief flash when an invalid paste action is blocked. Both effects are below the threshold of three flashes per second.

2.3.3 Animation from Interactions (Level AAA 2.1 and 2.2)
  EN 301 549 Criteria – Does not apply
  Revised Section 508 – Does not apply
	Does Not Support	Several small animations can be triggered by user actions: buttons scale slightly when clicked, cards flip to reveal content, and an invalid paste action causes a brief

Criteria	Conformance Level	Remarks and Explanations
		flash. Users cannot disable these animations.
2.4.8 Location (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Applicable	The application is a single-page experience that progresses through a linear, teacher-controlled sequence of activities (joining, waiting, writing, voting, results).
2.4.9 Link Purpose (Link Only) (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Supports	
2.4.10 Section Headings (Level AAA) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Partially Supports	Some screens use headings to organize content, while others use regular text elements instead of headings. Consistent use of headings across all screens would improve navigation for screen reader users.
2.4.12 Focus Not Obscured (Enhanced) (Level AAA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Supports	The app runs in fullscreen with no fixed headers, footers, or persistent overlays that could obscure focused elements. When modals appear (pause, errors, reconnecting), they cover the entire screen and properly trap focus within them, so students cannot focus on obscured elements behind the modal.

Criteria	Conformance Level	Remarks and Explanations
2.4.13 Focus Appearance (Level AAA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Not Evaluated
