Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.4)

Name of Product/Version: Star Reading (English)

Report Date: October 2022

Product Description: The Star Reading assessment is a short research-based test that is scientifically proven to help teachers guide each student on their unique path to proficiency. Star tests are computer adaptive, which means they adjust in difficulty to each answer students provide. This helps teachers get the best data to help students in the shortest amount of testing time and analyze the data they receive from Star Assessments to learn what students already know and what they are ready to learn next, to monitor student growth, and to determine which students may need additional help.

Notes: This VPAT covers the Star Reading assessment in English when administrators select the accommodations preferences before the assessment is administered.
